An Imphobia Production

The ultimate scene collection

Demos • Intros • Graphics • Music • Diskmags • Reports

DREAMS is a CD-Rom made BY the scene and FOR the scene and is a tribute to the scene and all the people among it. The idea behind this CD was to make a real scene archive which would include a collection of the all time best scene productions ever produced through times regardless of when or where they have been released. Thanks for supporting the idea, we wish you a fascinating experience.

I would like to thank the scene for the immense support I had with this Cd.
From the artists for sending me all their arts
and the groups for granting me all the needed authorisations for their productions,
to the individuals who helped me to gather material.
Dreams wouldn't have been reality without all of you.
