MODEL G15D GENERAL PURPOSE DIGITAL COMPUTER AND ACCESSORIES

L. Wheaton Smith

	LEASE PRICE	PURCHASE PRICE
G-15D General Purpose Computer Includes: Typewriter for keyboard input, output and control; paper tape punch and photo-electric reader; installation at customer's location; library of sub-routines; a training course in programming and operation; and programming and operation manuals.	\$1,485/Mo.	\$49,500
With purchased equipment the following is also supplied: A training course in maintenance; maintenance manuals; spare parts kit; and material and workmanship warranty for one year.		
Maintenance service is provided at no added cost on leased equipment. See separate price bulletin for schedule of maintenance prices on purchased equipment.		
MTA-2 Magnetic Tape Unit Up to four of these units, each with 300,000 words of storage capacity, may be used with each G-15D.	\$ 270/Mo.	\$ 6,800
DA-1 Digital Differential Analyzer With the addition of this device, the G-15D assumes a dual role. It combines the wide applicability of the General Purpose Computer with the simple programming for the solution of differential equations which is characteristic of the Digital Differential Analyzer. 108 integrators. 108 constant multipliers. DA-1 may not be used without G-15D.	\$ 550/Mo.	\$13,700
PA-2 X-Y Graph Plotter For use with DA-1 only. Plots output in two coordinates at 17 increments per second.	\$ 75/Mo.	\$ 1,800
AN-1 Alphanumeric Input-Output Adapter The AN-1 provides compatibility between the G-15 and other computing, data handling and communications systems. When used with the HSPR-5 or HSPR-7 reader-punch, and/or the 35-4 special Flexowriter electric typewriter, will accept any alphanumeric 5, 6 or 7 level paper tape code. User's own 5, 6, 7 or 8 level input-output equipment, operating at speeds up to 225 characters/second, may also be connected.	\$ 430/Mo.	\$10,775
HSPR-5 High Speed Reader-Punch for AN-1 Provides five level paper tape input-output for the AN-1, at 60 characters/second.	\$ 120/Mo.	\$ 2,875
HSPR-7 High Speed Reader-Punch for AN-1 Provides six or seven level paper tape input-output for the AN-1, at 60 characters/second.	\$ 120/Mo.	\$ 2,875
AN-2 Special Input-Output Adapter Enables the G-15 to produce punched control tapes for automatic machine tool systems from raw dimensional data. Originally developed for use with Bendix 3-axis machine tool control systems, the AN-2 is readily adaptable to other systems. Supplied with paper tape reader and punch.	\$ 600/Mo. \$ 400/Mo.	\$14,320 \$ 9,950
CA-1 Punched Card Converter Two IBM-026 reader-punches may be connected to the G-15D, by means of this accessory. One 026 is used for input at 17 columns/second maximum, and the other for output at 11 columns/second maximum. Reader-punches not supplied.	\$ 100/Mo.	\$ 2,530

35-4 Special Flexowriter Electric Typewriter and Paper Tape Reader-Punch
This equipment is a recommended accessory for users of G-15 equipment. It has the following uses:

- | | |
|--|--|
| <p>1) Independent preparation and duplication of G-15 five level paper tapes, and printing from output tapes, where it is desired to free the computer for maximum computing time.</p> <p>2) Alphanumeric paper tape input and output for the Model AN-1 accessory, in six level code.</p> | <p>3) Alphanumeric keyboard input and typed output for the Model AN-1 accessory.</p> <p>4) Independent preparation and duplication of AN-1 paper tapes, and printing from output tapes, when six level code is used.</p> |
|--|--|

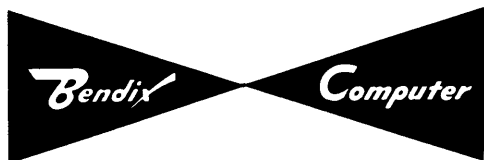

When ordering, ask for "Flexowriter Model 35-4, as specified by the Bendix Computer Division." Available from Friden Systems Division, Friden Calculating Machine Co., Inc., 1 Leighton Ave., Rochester, New York, with offices in principal cities.

PRICE LIST

G-15 GENERAL PURPOSE DIGITAL COMPUTER SYSTEMS

G-15 General Purpose Computer, including the following:	Model G-15A	\$44,800
Typewriter for Input, Output and control	Model G-15D	49,500
Paper Tape Input and Output (punch and photoelectric reader)		
Spare parts and Package test equipment		
Installation at customer's location		
Library of Sub-routines		
Operating and Maintenance Manuals		
Training Courses in Programming, Operation and Maintenance		
Material and Workmanship Warranty of One Year		
MTA-2 Magnetic Tape Unit. Up to four units, each with 300,000 word storage, may be used.		6,800
AN-1 Alphanumeric Paper Tape Input and Output Accessory		6,900
DA-1 Digital Differential Analyzer		13,700
PA-1 Graph Plotter, for use with DA-1		1,800
PFA-1 Graph Plotter/Follower for use with DA-1		5,700
PTP-1 Paper Tape Output Punch (60 char/sec.)		3,240
CA-1 Punched Card Input-Output Converter		1,245

Prices are f.o.b. Los Angeles and are subject to change without notice.

MODEL G15D GENERAL PURPOSE DIGITAL COMPUTER AND ACCESSORIES

	LEASE PRICE	PURCHASE PRICE
* G-15D GENERAL PURPOSE COMPUTER — with alphanumeric typewriter.....	\$1,530/mo.	\$51,000
with numeric typewriter.....	\$1,485/mo.	\$49,500

Includes: Typewriter; paper tape punch and photoelectric reader; installation; library of subroutines; training in programming and operation; and programming and operation manuals.

With purchased equipment the following is also supplied: A training course in maintenance; maintenance manuals; spare parts kit; and warranty as described on reverse.

Maintenance service is provided at no added cost on leased equipment. See separate price bulletin for schedule of maintenance prices on purchased equipment.

*read 250 ch/sec
punch 17 ch/sec*

MTA-2 MAGNETIC TAPE UNIT.....	\$ 270/mo.	\$ 6,800
-------------------------------	------------	----------

* CA-2 PUNCHED CARD ADAPTER.....	\$ 585/mo.	\$19,500
Attachment A: Necessary for connection of tabulator for output. One-time charge on lease or purchase: \$330. Additional five-foot increments of cable: \$27.50.		
Attachment B: Enables a single summary punch unit to read or punch up to 80 columns without changing control panels. One-time charge on lease or purchase: \$280. Additional five-foot increments of cable: \$27.50.		

CA-1 PUNCHED CARD ADAPTER.....	\$ 100/mo.	\$ 2,530
--------------------------------	------------	----------

PR-1 AUXILIARY PHOTOELECTRIC PAPER TAPE READER.....	\$ 75/mo.	\$ 2,500
---	-----------	----------

PR-2 SPECIAL PHOTOELECTRIC PAPER TAPE READER.....	\$ 175/mo.	\$ 5,900
---	------------	----------

PTP-1 AUXILIARY HIGH SPEED PAPER TAPE PUNCH.....	\$ 160/mo.	\$ 4,500
--	------------	----------

AN-1 UNIVERSAL CODE ACCESSORY.....	\$ 450/mo.	\$11,250
------------------------------------	------------	----------

* DA-1 DIGITAL DIFFERENTIAL ANALYZER.....	\$ 550/mo.	\$13,700
---	------------	----------

PA-3 X-Y GRAPH PLOTTER (new model).....	\$ 100/mo.	\$ 2,500
---	------------	----------

35-4 SPECIAL FLEXOWRITER ELECTRIC TYPEWRITER AND TAPE READER-PUNCH.....

This equipment may be used for independent preparation and duplication of G-15 five level paper tapes, and off-line printing from output tapes. Available from Friden Systems Division, Friden Calculating Machine Company. When ordering, ask for "Flexowriter Model 35-4," as specified by the Bendix Computer Division.

* 40% off on purchase price
* 15% " " lease price
