Section 2

The manuals in this section are listed by Product or System Number. Many entries include a product to equipment cross reference; e.g. 1742 (CL309-A/B, FF511-A/B). Since Hardware manuals for equipment developed after November, 1967 are categorized by equipment designator, always look up the equipment designator in Section 1 as the Product Number.

Section 3

A number of Software manuals are listed in more than one location because of the fact that specific software products will run on various operating systems.

Manuals in this section:

The format in this section uses a machine line heading with a listing of manuals for each operating system version and the appropriate product set members printed beneath the heading.

If unable to locate required manuals in this section of the catalog, please refer to the Other Sources of Literature in Section 5.
