SSRT4918 HP Software Security Customer Advisory
Information as of October 18, 2004
SSRT4918 Potential Unauthorized File Access in Insight Diagnostics Online Edition

Summary

A security vulnerability has been discovered within Insight Diagnostics (version 6.3.0), a component that is deployed as part of the installation of the ProLiant Support Pack or downloaded individually from the web. The security vulnerability, if exploited, could allow an intruder to save a potentially harmful file to the targeted system.

Scope of the Problem

Any ProLiant server running Insight Diagnostics Online Edition version 6.3.0.

What HP Is Doing

A new version of Insight Diagnostics has been created, tested, and is available for download. This new version contains an update to the vulnerable section of the program. Future versions of Insight Diagnostics will also contain this update, thus eliminating any future exposure to this particular risk.

What Customers Should Do

Download and install the Insight Diagnostics version 6.3.1 or higher from the following URL:
For Microsoft Windows: http://h18023.www1.hp.com/support/files/server/us/locate/7751.html
For Red Hat Enterprise Linux 3: http://h18023.www1.hp.com/support/files/server/us/locate/7287.html
