

## SmartStart 8.15 New Product Support

### New Server Products

Server Models	Description
»HP ProLiant BL460c G5 Server	The BL460c G5 supports new Dynamic Power Capping capability to safely reclaim unused power capacity so you can expand the number of servers using the power you already have. It supports only low-power fully-buffed DDR2 memory and the latest low power Quad-Core Intel® Xeon® processors. It saves 44W per server and 704W per HP BladeSystem c7000 enclosure. This equals \$2,220 electrical savings over 3 years at 8c per kWh and a faster return on investment.
»HP ProLiant DL385 G5p Server	The new HP ProLiant DL385 G5p Server offers twice the memory, double the NICs, and up to 16 drives. Powered by two Quad-Core AMD Opteron™ 2300 Series Processors, with 6MB L3 cache, this server is the right fit for virtual perfection because it allows customers of all sizes, from a small business to a large enterprise, to deploy more virtual machines with confidence.
»HP ProLiant ML310 G5p Server	The HP ProLiant ML310 G5p is an affordable, single processor tower server designed to provide the solid network foundation essential to fuel thriving small offices. Quad or Dual-Core Intel® Xeon®, Dual-Core Pentium® or Core™2 or Single-Core Celeron® processing power combines with industry-leading management and essential data protection features for a secure, affordable platform that helps you run your business efficiently.

### New Product Options

Option	Description
» HP NC532m Dual Port Flex-10 10GbE Multi-function BL-c Adapter	The new NC532m is the first Flex-10 enabled 10Gb mezzanine adapter designed to work with the HP Virtual Connect Flex-10 10Gb Ethernet Module for BladeSystem c-Class. The NC532m is a dual port 10GbE adapter that when paired with the new 10Gb Virtual connect module provides up to eight physical function NICs that can be configured to operate at any speed from 100Mbps to 10Gbps. The NC532m adapter is supported in ProLiant c-class server blades Type I and II mezzanine slots providing customers added flexibility when provisioning their server network connections.

## New Operating System Support

### Operating System

---

- » Red Hat Enterprise Linux 4.7 (x86 and AMD64/EM64T)

### New Drivers and Utilities

- » New Drivers for Windows® ProLiant Support Pack (PSPs) 8.15
  - HP SC08Ge Host Bus Adapter
  - Network Controller Driver Ethernet
- » New Drivers for Linux ProLiant Support Pack (LSP) 8.11
  - No new drivers for this release

## Updated Drivers and Support Software
