E7675A Modular Power Distribution Unit Technical Data

Product Number
E7675A

Supply power to HP rack systems

The Power Distribution Unit (PDU) supplies power to the devices mounted in the HP rack cabinet.

The modular family of PDUs is designed for maximum flexibility and can be installed in whatever position is best suited for your system.

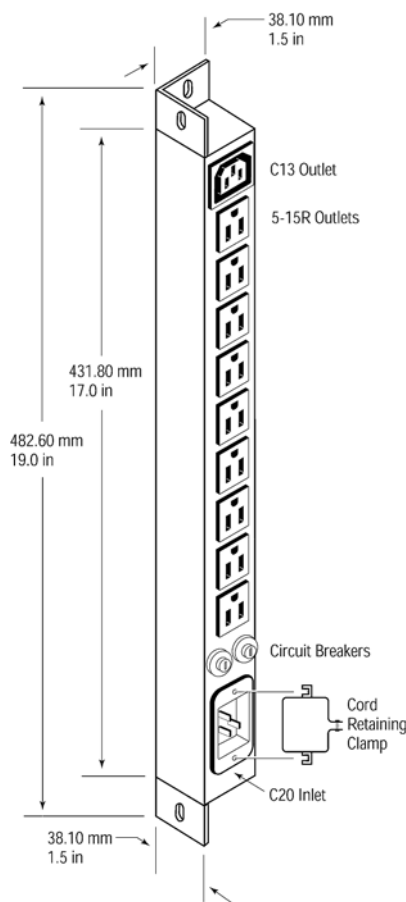

PDU E7675A may be used alone or in combination with another PDU from the modular PDU family. E7675A is designed for needing NEMA oulets on the PDU.

Features

- Rated for 16 amps, 100-127VAC
- 9 NEMA 5-15R outlets
- 1 IEC320 C13 outlet
- 1 IEC320 C20 inlet
- 2 circuit breakers
- Cord retaining clamp

Installation

All mounting hardware is included. A separate installation kit is not needed.

- Can be mounted vertically on one of the rack's rear columns, or horizontally between the rear columns. Dimensions comply with 19-inch EIA standard.

- Built-in mounting bracket can be positioned so outlets face up, down, or outward.

Power cords

E7675A receives power through a C20 inlet. Cord must be ordered

separately. PDU power cords are available in 2.5m and 4.5m lengths (98.4in and 177.2in).

PDU Power Cords		
Product Number	Length	Plugs
E7802A	4.5m	C19 to 5-20P
E7804A	4.0m	C19 to C20
E7806A	4.5m	C19 to no plug
(4.0m=157.5in) (4.5m=177.2in)
