

# E7682A (A5499AZ Opt 002) - HP PDU with Power Relay and IEC309 Plug, 30 Amp, 200-240V

## Technical Data

Product Number  
E7682A

### Supply 30 amp power to HP rack systems - International

The Power Distribution Unit (PDU) supplies power to the equipment mounted in an HP Rack System/E or /U. This 30 amp PDU is constructed for international use with high amperage configurations.

There are two independent 20 amp circuit breakers that provide a timed power-up and power-down sequence to protect against excessive current surges.

### Features

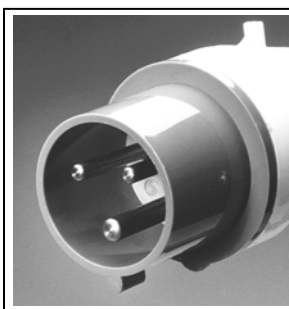

- Single phase input
- Attached 3 m (118.1 in) harmonized power cord with a IEC309 plug
- Cable management controls unruly cables and cords
- Built-in switch relay receivers for switch cables (optional use)

### Specifications

Dimensions comply with 19" EIA standards.

- 30 Amps
- 200-240V
- 8 IEC320 C13 outlets
- 2 IEC320 C19 outlets
- 3 m (118.1 in) power cord
- IEC309 plug, 30 amp
- 3 EIA required

IEC309 plug

### Installation

This PDU can be mounted horizontally between the rear columns or vertically on a single column. All mounting hardware is included.

Tool required for installation:

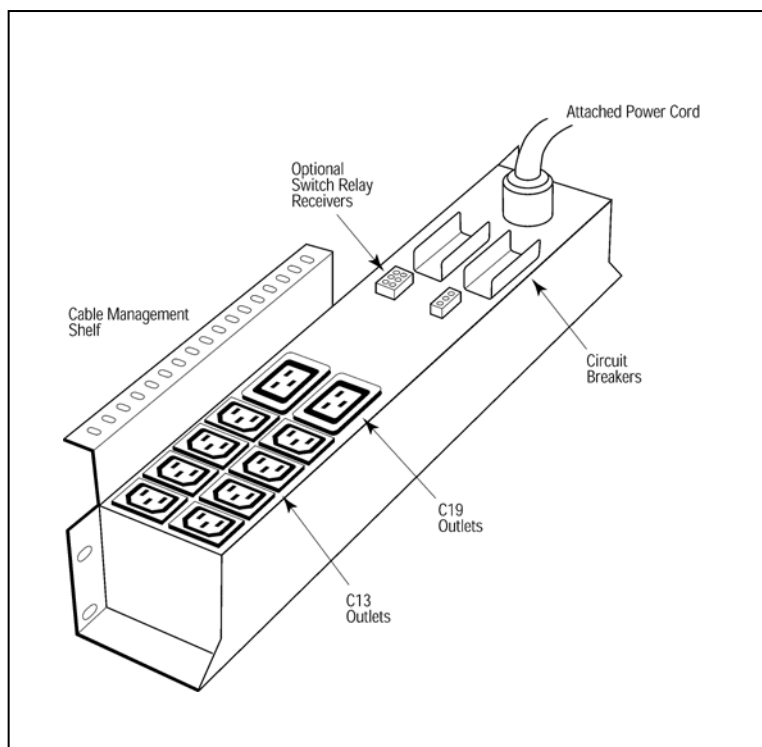

- Torx T25 screwdriver

### Certifications

- TUV-R GS
- CE Marking

### What you get in the box

- PDU with power relays
- Mounting hardware
- Installation instructions

## Compatibility

Can only be used with Rack System/E and Rack System/U.
