
J1512B – HP Tie Kit, 41U quartz color

J1512D – HP Tie Kit, 41U, graphite color

Technical Data

Connect two or more racks together without removing rackmounted equipment

HP Rack System tie kits make it fast and easy to tie racks together, creating continuous rack space and adding lateral stability. Installation can be done while the racks are fully loaded with equipment.

Features

- Easily installed, without removing or turning off power to rackmounted equipment. Can also be installed without removing front door and without the need for side access.
- Provides structural, as well as aesthetic connection between racks.

Related Products

The tie kit is also available in other sizes :

J1513B/D – for use tying together two HP Rack System/E, 33U cabinets (A4901A/A4901D)
