Abstract

This paper provides a list of options supported for the HP Compaq Thin Client t5700.

Introduction

HP offers an extensive selection of options for the HP Compaq Thin Client t5700. These options allow network administrators to create a thin client network that has the performance and versatility of a desktop network.

Not all of the following are HP products. This paper lists all products HP has tested and found to be compatible with the HP Compaq Thin Client t5700.

USB Devices

The following USB devices are supported by the preinstalled image:

Product	Part Number
Zoom 2985L USB External Modem	0092-Z2985-00-001-0148

The t5700 is an Image-based product. Any unique USB device will require the appropriate USB device driver be part of the image. If the device is not supported directly by HP, then the user will have to manually download the device driver to the client.

Please keep in mind that the image does not have the MSI installer, and thus the drivers will either have to be manually installed or through an Install Shield mechanism.

Printers

The following printers are supported by the preinstalled image:

Product	Part Number
Compatible with Native text-based printer drivers	
HP DeskJet 5550 (USB & Parallel)	C6487C
HP DeskJet 6122 (USB & Parallel)	C8954B
HP LaserJet 1200SE (USB & Parallel)	C7047A

HP DeskJet 3820 (USB & Parallel)	C8952A
