

IBM ThinkPad US Warranty Upgrades (IBM ServicePac for Warranty and Maintenance Options)

IBM ServicePac for Warranty and Maintenance Options

With IBM ServicePac for Warranty and Maintenance Options, you can upgrade the service included with your hardware's original warranty. Choose the right package with the service response time that's right for you, with coverage for parts and labor.

We provide a range of service levels based on your specific product type. Choose the level that best meets your service need. Service must be purchased during the original product warranty period, and your service term begins concurrent with the product warranty.

IBM ServicePac services are:

- Easy to use
- Affordable
- Available in convenient configurations

Service options meet your needs

To select the ServicePac that's right for you, from the table below simply...

1. Select the Machine Name, Type and Model Number that matches the system for which you'd like to upgrade the warranty service
2. Choose the Service Level* that meets your service needs
3. Contact your IBM Business Partner to place your order

***Service Levels**

9 x 5/Next Business Day

A service technician is scheduled to arrive at your location on the business day after we receive your call. Service hours are 8 a.m. to 5 p.m. local time, Monday through Friday, excluding IBM holidays.

Depot repair

A courier picks up your ThinkPad and delivers it to our depot repair center, where our objective is to repair it within 12 hours of arrival. Machines arriving at the depot in the morning are scheduled to be repaired and shipped back to you on the same day.

International service for IBM ThinkPad notebooks

When you travel and work internationally, you want to feel secure that service for your ThinkPad notebook is available wherever your business takes you. If you have purchased a warranty service upgrade or maintenance agreement from IBM, international service is now available to you in all countries where ThinkPad notebooks are serviced by IBM. This additional coverage is provided, at no additional charge, as part of all current or new IBM maintenance agreements.

Please note that this service is intended to cover US customers traveling abroad and is not intended for export or for coverage of ThinkPads permanently relocated to a country outside of the US.

You must register with IBM to be eligible for international coverage by calling one of the four registration offices listed below. If you have purchased an IBM ServicePac for Warranty and Maintenance Options, you can register for international service for your ThinkPad notebook at the same time you call to register your ServicePac.

United States	1-800-497-7426
Scotland	(44) 1475-893638
Japan	(81) 462-73-7598
Australia	(61) 2-9354-4171

IBM ThinkPad US Warranty Upgrades (IBM ServicePac for Warranty and Maintenance Options)

You should be prepared to provide the following information to register for this service:

- Customer/Company name
- Address
- Country of service purchase
- Machine type, model and serial number
- Original date of ThinkPad notebook purchase
- Proof of service purchase

IBM will send you a registration package that contains a service entitlement certificate and a list of telephone numbers to call when you require service abroad. Service will be provided at the standard level of service for ThinkPad notebooks in the country you are visiting.

Limitations of service

These services are available for machines normally used for business, professional, or trade purposes, rather than personal, family or household purposes. Not all machine types and models are covered. Service period begins with the equipment date of purchase. Service must be purchased during the original limited product warranty period. Service levels are response time objectives and are not guarantees. A service technician is scheduled to arrive at your location within two or four business hours or the next business day (depending on service) after remote problem determination is completed. For the 9x5x4 hour service, calls dispatched after 1:00 p.m. local time, you can expect the service technician to arrive by the morning of the following business day. For non-critical service requests, a service technician will arrive by the end of the following business day. If the machine problem turns out to be a Customer Replaceable Unit (CRU), IBM will express ship the part to you for quick replacement. Onsite 24x7x2 hour service is not available in all locations. External peripherals, such as racks, tape drives, and channel controllers, require their own, separate service coverage, they are not covered under the attached Machine. Service activation is required immediately following purchase. Visit <http://www.ibm.com/services/its/us/source/wamomxeu.pdf> for complete details.

For ThinkPad notebooks requiring LCD or other component replacement, IBM may choose to perform service at the depot repair center. For failing non-IBM components, customer must provide replacement part unless IBM has a Technical Support Agreement with the manufacturer. Service does not cover accessories, supply items and certain parts such as batteries, frames and covers.
